INTRODUCTION

KneeDeep provides nationally accredited training and development for people who want to improve their project management skills.

The focus of the program is to enable those who have some experience in project management to develop the competencies required to be successful in their role while supporting future development into the role of project manager.

PARTICIPANT PROFILE

The Certificate IV in Project Management program is designed for people who participate and contribute to the management of projects. This qualification reflects the role of individuals who use well-developed skills and a broad knowledge base in a wide variety of contexts. They apply solutions to a defined range of unpredictable problems, and analyse and evaluate information from a variety of sources. They may provide leadership and guidance to others with some limited responsibility for the output of others.

The target group of Learners for the Certificate IV in Project Management are those already working as team members within project teams or anyone who would like to have a better understanding of project management techniques and how it can be applied in their workplace.

KEY BENEFITS

- Introduction to the Project Management Body of Knowledge (PMBOK). This is an internationally recognised standard that covers the 10 areas of project management.
- Understand why leadership is necessary in a project environment.
- Acquire knowledge of project management principles and the application of techniques towards successful projects.
- Learn how to contribute effectively in a project environment.
- Better understanding of topics related to financial management, procurement, sales, contracts, quality, risk management, human resources, as well as time and communication management.
